SLIWA-HAHNLE, Prof Karen Director, Hatter Institute for Cardiology Research; Diploma in Tropical Medicine and Hygiene, specialist physician, cardiologist (2000). Is one of the very rare cardiologists in South Africa who is clinically active and trained in fundamental molecular laboratory methods, combining laboratory and epidemiological skills. Widely published in both and international magazines and books of various topics related to cardiovascular medicine. Internationally recognized for his prominent work in the card of heart failure. Collaborations with a series of prestigious clinical and international and international academic centers. She has an attachment as an attached professor at the University of Queensland, Brisbane, Australia and as a visiting professor at the Baker Institute in Melbourne, Australia. Stein, Prof. give a professor and head of the Department, Psychiatric and Mental Health; President in Psychiatric; Director, brain and behavior initiative (BBI). The Initiative of Brain and Behavior (BBI) allows interfacultative, multidisciplinary and collaborative research in cognitive and emotional neurosciences and rejecting specialized knowledge in phenotyped, genotyped, cognotyped, brain image and molecular firms to address brain-behavior problems. New experimental techniques, including brain images, genic tests and neuropsychological evaluation combined with new theoretical ideas, have opened significant potential for the advancement of tools and diagnostic treatments innovative for people with mental disorders. The initial approach to trauma and resilience has now expanded to work on the use of substances and the Neurovih.
